ROGERS PLACE TECHNICAL GUIDE

LOADING IN / PARKING

Rogers Place has the ability to house up to eight (8) buses and four (4) trucks inside our covered loading dock area, located on the east face of the building on 102 St. Limited street parking can be arranged for additional vehicles as needed. Please review your parking needs with your Event Manager for guidelines.

Events with over 10 trucks and eight (8) busses can access parking at our off-site location. Your Event Manager can provide you with the parking lot locations and associated costs.

The loading docks at Rogers Place consist of four (4) docks with dock levelers.

Loading Bay Height: 4.27 m (14 feet)

The elephant door has a 4.57 m (15 feet) height clearance. This door is situated at the top of the ramp that rises 1.17m (3.84 feet) over a 19.96 m (65.5 feet) run in the loading bay.

IATSE

Rogers Place has a collective agreement with IATSE Local 210 to provide all rigging, loaders and stagehands, forklift operators and followspot operators within Rogers Place. The house electrician will tie in the power for your event, as this is not an IATSE position at Rogers Place. Your Event Manager will coordinate all IATSE requirements as needed for your event. IATSE rate cards and guidelines are available from your Event Manager upon request.

In accordance with the agreement between Rogers Place and IATSE Local 210, all related IATSE labour amounts will be charged out at holiday rates for all hours worked during General holidays. The IATSE recognized General holidays are:

New Year's Day
January 1

Alberta Family Day
Third Monday in February

Good Friday
Friday before Easter

Victoria Day
Monday before May 25

Canada Day
July 1
(Except when it falls on a Sunday,
then it is July 2)

Heritage Day
First Monday in August

Labour Day
First Monday in September

Thanksgiving Day
Second Monday in October

Remembrance Day
November 11

Christmas Day
December 25

New Year's Eve
December 31
(commencing at 1800 hrs December 31)

RIGGING & CADs

Rogers Place requires the rigging plot 14 days prior to the event day for in-house approval. All rigging is to be done by IATSE Local 210.

The minimum IATSE personnel shall include: two high riggers and one ground rigger to ensure proper safety compliance

RIGGING DETAILS:

Height to the bottom of the catwalk: 38.40 m (126 feet)

Height from the floor to the rigging steel: 38.40 m (126 feet)

- Please note the grid tapers up at both ends of the arena where the grid transitions to a hub and spoke structure

Height to the buttress: 28.04 m (92 feet)

Height to the bottom of the lower halo on the retracted scoreboard: 26.30 m (86.3 feet), lighting, audio, cameras and microphones hang down an additional 1.16 m (3.8 feet)

- Overall hang: 25.21 m (82.7 feet)
- Overall height of the scoreboard: 10.39 m (34.1 feet)
- The scoreboard has a tapered design. The top is 14.20 m (46.6 feet) in width while the base is 12.13 m (39.8 feet)
- Rigging is not permitted through the center of the scoreboard, but hangs around the scoreboard are permitted
- The scoreboard retracts most of the way into the ceiling grid

Maximum point load hang: 2,268 kg (5,000 pounds)

Maximum hang for concert end stage: 90,718 kg (200,000 pounds)

Maximum hang for center stage: 90,718 kg (200,000 pounds)

Maximum hang for opposite end stage: 54,431 kg (120,000 pounds)

Bridles and dead hangs are acceptable, except through the scoreboard

All venue rigging maps are available upon request from your Event Manager

All concert layouts and floor configurations require approval from your Event Manager. Rogers Place will provide a venue specific CAD with floor configurations based on local fire and safety regulations

SOFT GOODS PACKAGE

Rogers Place has two curtain packages that span the width of the bowl. The end-stage curtain is static, the concert-bowl (mid-stage) curtain can be moved to three optional locations. Additional costs are required for moving the mid-stage curtain.

Upper-bowl masking is available for the entire upper bowl at Rogers Place. A draping system is available in sections, so you can sell portions of the upper bowl and still have other sections draped off.

Ask your Event Manager for details.

PYROTECHNICS / SPECIAL EFFECTS and INSURANCE

The use of pyrotechnics and special effects are permitted in Rogers Place with prior approval. Notice of at least 30 days prior to your event is required by your Event Manager. All pyro technicians must be certified by Natural Resources Canada. All permits and insurance documents are the responsibility of the promoter and must be provided to the Edmonton Fire Department in advance of your event. Please contact your Event Manager to discuss the special effects requirements for your event.

Rogers Place requires a copy of your event insurance with Oilers Entertainment Group Canada Corporation and City of Edmonton named as additional-insured before a letter of permission can be issued to the City of Edmonton.

Hospitality

In house catering is available upon request. Our catering team would be happy to provide you with a personalized catering experience to suit “on the road” dietary needs while showcasing fresh and unique local ingredients.

Outside catering is permitted in certain areas of Rogers Place. Please contact your Event Manager for details.

Due to Alberta liquor regulations, ALL alcohol requirements need to be purchased through the venues liquor license. Compliance with Alberta Gaming, Liquor and Cannabis Commission is mandatory.

For more information on catering, please contact your Event Manager.

Merchandise

At Rogers Place we provide premium retail kiosks for all your concert merchandise needs. We are flexible with locations and can accommodate most merchandise requests in order to ensure we maximize sales. We provide experienced sales driven staff and managers to ensure we are delivering exceptional service to our fans and hitting record sales!
